## Education

**Pontifícia Universidade Católica de Goiás (PUC GO)**

*Associate Degree in Systems Analysis and Development*

*2024 – in progress*

## Experiences

### Screen Network

*January 2018 - January 2019*

#### *Software engineer*

- I developed an automation for an internal communication group used by the company as a forum/chat platform.
- The automation managed and administered the entire group, ensuring compliance with the established policies.
- I implemented features for automatic role assignments, moderation, and event reminders.
- I built the application using JavaScript and MySQL, leveraging a specific library to integrate with the platform's API.

## Skills

- |                |              |
|----------------|--------------|
| – ReactJS      | – Prisma     |
| – React-Native | – Drizzle    |
| – NestJS       | – Javascript |
| – Spring Boot  | – Typescript |
| – NextJS       | – Java       |
| – MySQL        | – Svelte     |
| – PostgreSQL   | – MongoDB    |
| – TailwindCSS  | – Recoil     |
|                | – Git        |
